

*Beautiful stories. Told in pure wool.*

# Whiter shades of wow

A room with a point of view. Seaside elegance brought to life with a surprising twist of luxurious texture. Hugging the Atlantic Ocean, yet miles away from traditional beach décor. A glamorous boudoir, grounded in an endless expanse of custom wool carpet. Presented in wondrous, pure white.

Sometimes, wool tells a quiet story. This tale is spun in glorious white – a beautifully designed, textured pattern, woven to exacting specifications. Only wool can capture the subtle effect of soft white-on-white that frames this glorious hideaway – dreamily juxtaposing the sand and surf that await outside.

## Wool says it best

At Langhorne Carpet Company, we create legendary pieces of art. Every installation is meticulously crafted and custom matched to any color – with the finest-grade, opulent wools, dyes and tireless hand work.

Using 19th-century techniques – with a touch of modern technology – we weave extraordinary carpets to delight your most discriminating client. Designs are fashioned with hand-punched Jacquards, then painstakingly produced with every loop carefully inspected.

## A lasting impression

You'll find our works of art everywhere, from an epic Manhattan penthouse to the White House. Dazzling modern designs and historical reproductions, crafted in superior wools from Great Britain and New Zealand.

In addition to our peerless custom work, we offer an extensive collection of stocked designs – a truly incomparable array of broadlooms, narrow looms and borders that are distinctive and elegant.

Wool says wow. It's natural, durable, renewable and looks better...longer. Our buyers insist on the world's finest wools – for impeccable color, texture, feel and finish.

*Let's create your next story.*

# History

*woven into  
every yard*

Mark Wolf (left) and Jerry Bell, childhood friends and coworkers

## Mark Wolf and Jerry Bell, mill supervisors

Jerry: "I've grown up here. I started 35 years ago, tying bobbins, creeling, weaving. Then one of the third-generation owners, who had an engineering degree, took me under his wing and taught me how to fix the machines, fabricate obsolete parts and assemble every nut and bolt in the loom to solve every mystery and repair every problem."

Mark: "We are big, yet small. We create these incredible pieces that go all over the world. We've made carpets for Pope Francis and for ambassadors. And still, we're a close-knit family. People matter here. It shows in everything we do."

We are fourth-generation artisans who apply age-old techniques and craftsmanship to create timeless treasures out of the finest wools from Great Britain and New Zealand. Each Jacquard is hand punched to exacting standards. Each carpet is woven individually, from start to finish. Every loop is inspected by hand.

A Langhorne carpet tells a story. A story of every person who walked on it. A story of every home it graced. A story of every skilled hand who helped construct it. Our turn-of-the-century mill is our first and only location – where we have elevated Wilton carpet weaving to an art form.

We are a family, a dedicated group of caring, conscientious people proud to bring you the world's most beautiful carpets.
